

GAIN PRASAD KAR

FRONTEND DEVELOPER

PROFILE

I am an enthusiastic, passionate and detailed oriented Front-end developer with a strong foundation in various web development technologies. I am a growth minded and focused person. I have dedicated myself to become a better developer day by day. I wish to surpass those who are already ahead of me. I will prove myself to be a great asset.

PROJECTS

MOVIES APP

- Leveraged React Js library to build reusable components and established multiple routes using react-router-dom, enhancing navigation and app structure.
- Utilized Tailwind CSS framework to style the application, ensuring responsiveness across.
- Seamlessly integrated RESTful API using Axios, enriching the app with dynamic data.
- Handled making excessive API calls caused by Infinite scroll in two routes.

BLOG GENERATOR

- Leveraged the React.js library to construct reusable components and react-router-dom for navigation.
- Employed the Tailwind CSS framework to style the application, ensuring responsiveness across devices.
- Seamlessly integrated the Axios API to incorporate the openAI API, enhancing the app's functionality.
- Ingeniously implemented the openAI API to generate dynamic blog content, showcasing innovative utilization of technology.

IMAGE GALLERY

- Leveraged Vanilla JS for DOM manipulation and Tailwind CSS framework for styling the application and making it responsive across different devices.
- Used Axios API to fetch images from Pexels's database.
- Implemented a feature where user can change the orientation of the images.
- Implemented Infinite Scrolling and handled the scenario multiple API calls at once.
- Leveraged IntersectionObserver API to implement lazy loading for dynamically inserted Images.

EDUCATION

Bankura University

Bachelor of Arts - English Hons.

2020 - 2023

ACHIEVEMENT

Ranked 4195 in JEXPO 2022.

Learned Python basics in consecutive 2 days.
